COORDINATION
DEPENDABLE EXECUTION

Purpose that guides every shipment

A clear mission, a focused vision and six operating principles.

OUR MISSION

Make cross-border cargo movement simpler, clearer and more dependable through responsive coordination and disciplined execution.

OUR VISION

To be the freight partner businesses trust for seamless global connections and consistent service at every stage of the shipment journey.

HOW WE WORK

RELIABILITY

RESPONSIVENESS

VISIBILITY

ACCOUNTABILITY

INTEGRITY

CUSTOMER FOCUS

Services built around the shipment journey

Each capability connects into one coordinated logistics solution—from route planning to final delivery support.

01 SEA FREIGHT

International ocean freight planning, routing and carrier coordination.

02 AIR FREIGHT

Time-sensitive cargo routing, airline coordination and documentation.

03 FREIGHT FORWARDING

Booking, routing, documentation and end-to-end movement management.

04 CUSTOMS COORDINATION

Export-import clearance and shipping-document support.

05 INLAND TRANSPORTATION

Factory pickup, container movement and domestic cargo transport.

06 DOOR-TO-DOOR

Origin pickup through final delivery with managed hand-offs.

07 WAREHOUSING

Storage, handling and distribution support aligned to shipment needs.

08 CARGO CONSOLIDATION

Cargo coordination and consolidation support where applicable.

09 PROJECT CARGO

Specialized coordination for non-standard and industrial cargo.

10 IMPORT-EXPORT SUPPORT

Process, registration and trade-document coordination support.

Sea freight, planned around your priorities

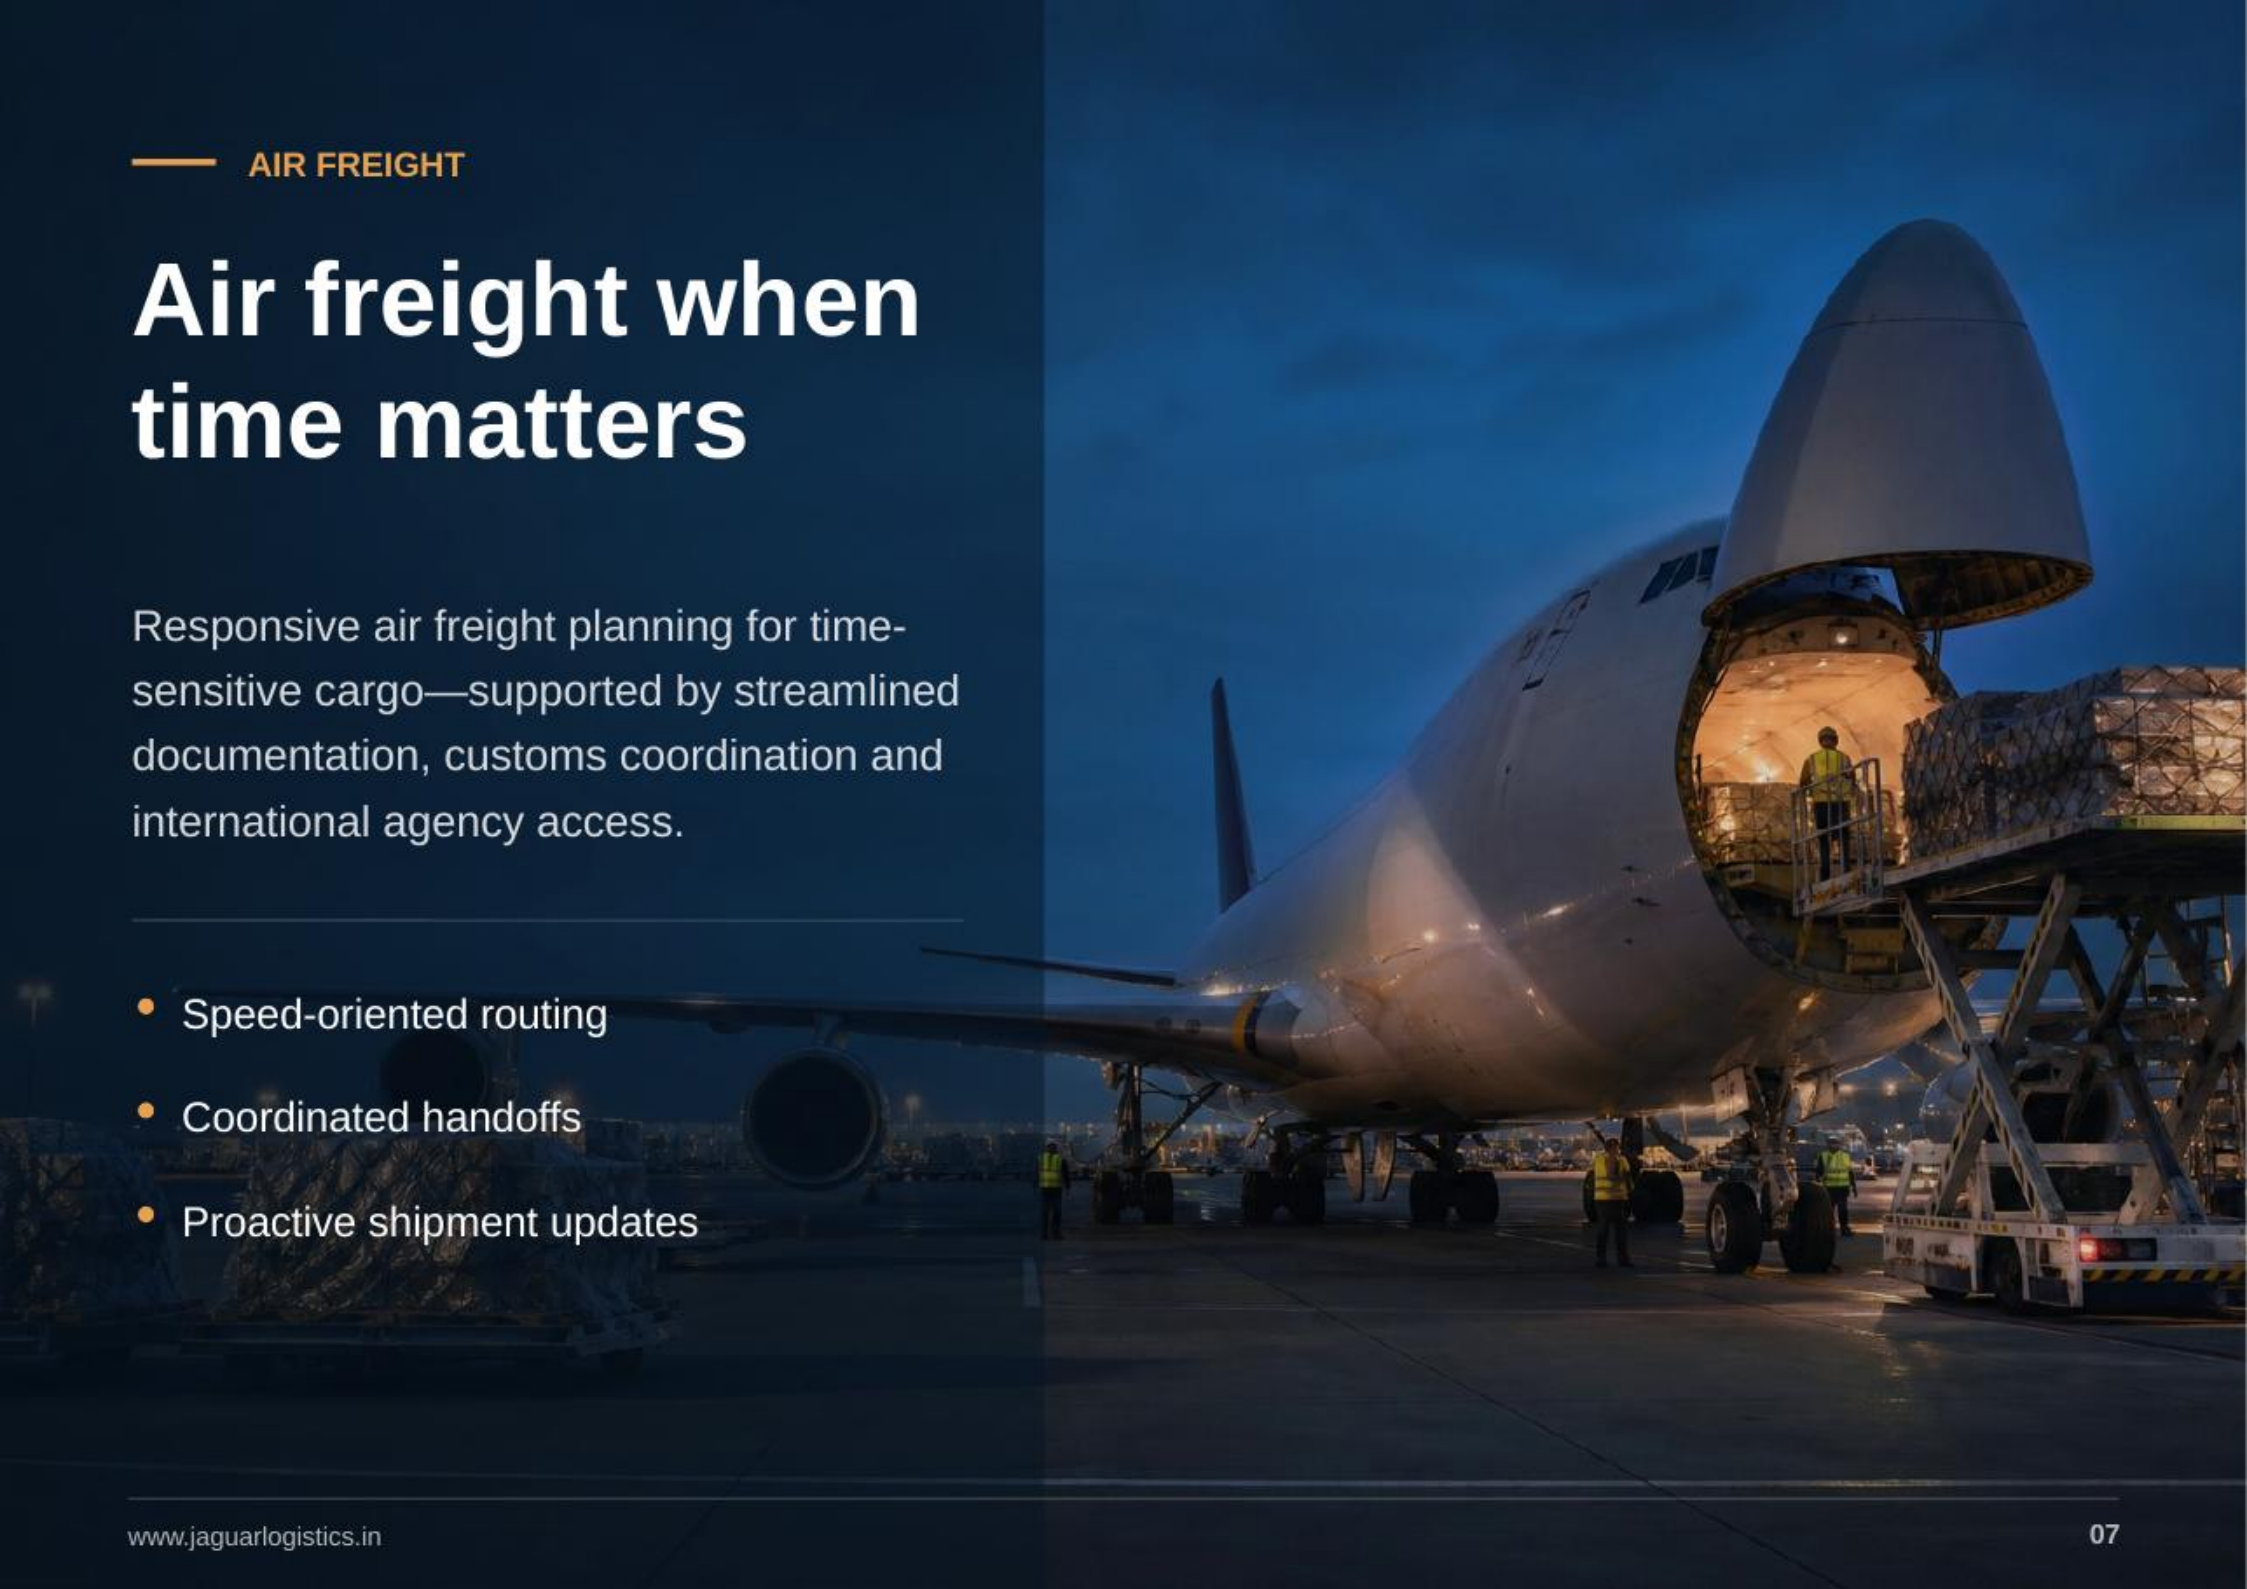

Flexible international sea freight and carrier coordination designed around cost, schedule and cargo requirements.

- Route and carrier coordination
- Documentation alignment
- Origin-to-destination visibility

Air freight when time matters

Responsive air freight planning for time-sensitive cargo—supported by streamlined documentation, customs coordination and international agency access.

- Speed-oriented routing
- Coordinated handoffs
- Proactive shipment updates

Clear documentation. Smoother cargo movement.

Coordinated export-import documentation and customs hand-offs help reduce avoidable delays and keep every stakeholder aligned.

- Customs-clearance coordination
- Shipping-document alignment
- Port, ICD and CFS hand-offs
- Export-import process support

From factory floor to final destination

Factory pickup, container movement, gateway hand-off and delivery coordination—managed as one connected shipment flow.

Flexible support between arrival and onward movement

Storage and cargo-handling support can be aligned to each shipment's timing, consolidation and distribution requirements.

- Storage coordination
- Stuffing and cargo handling
- Consolidation support
- Distribution and hand-over planning
- Shipment-aligned staging

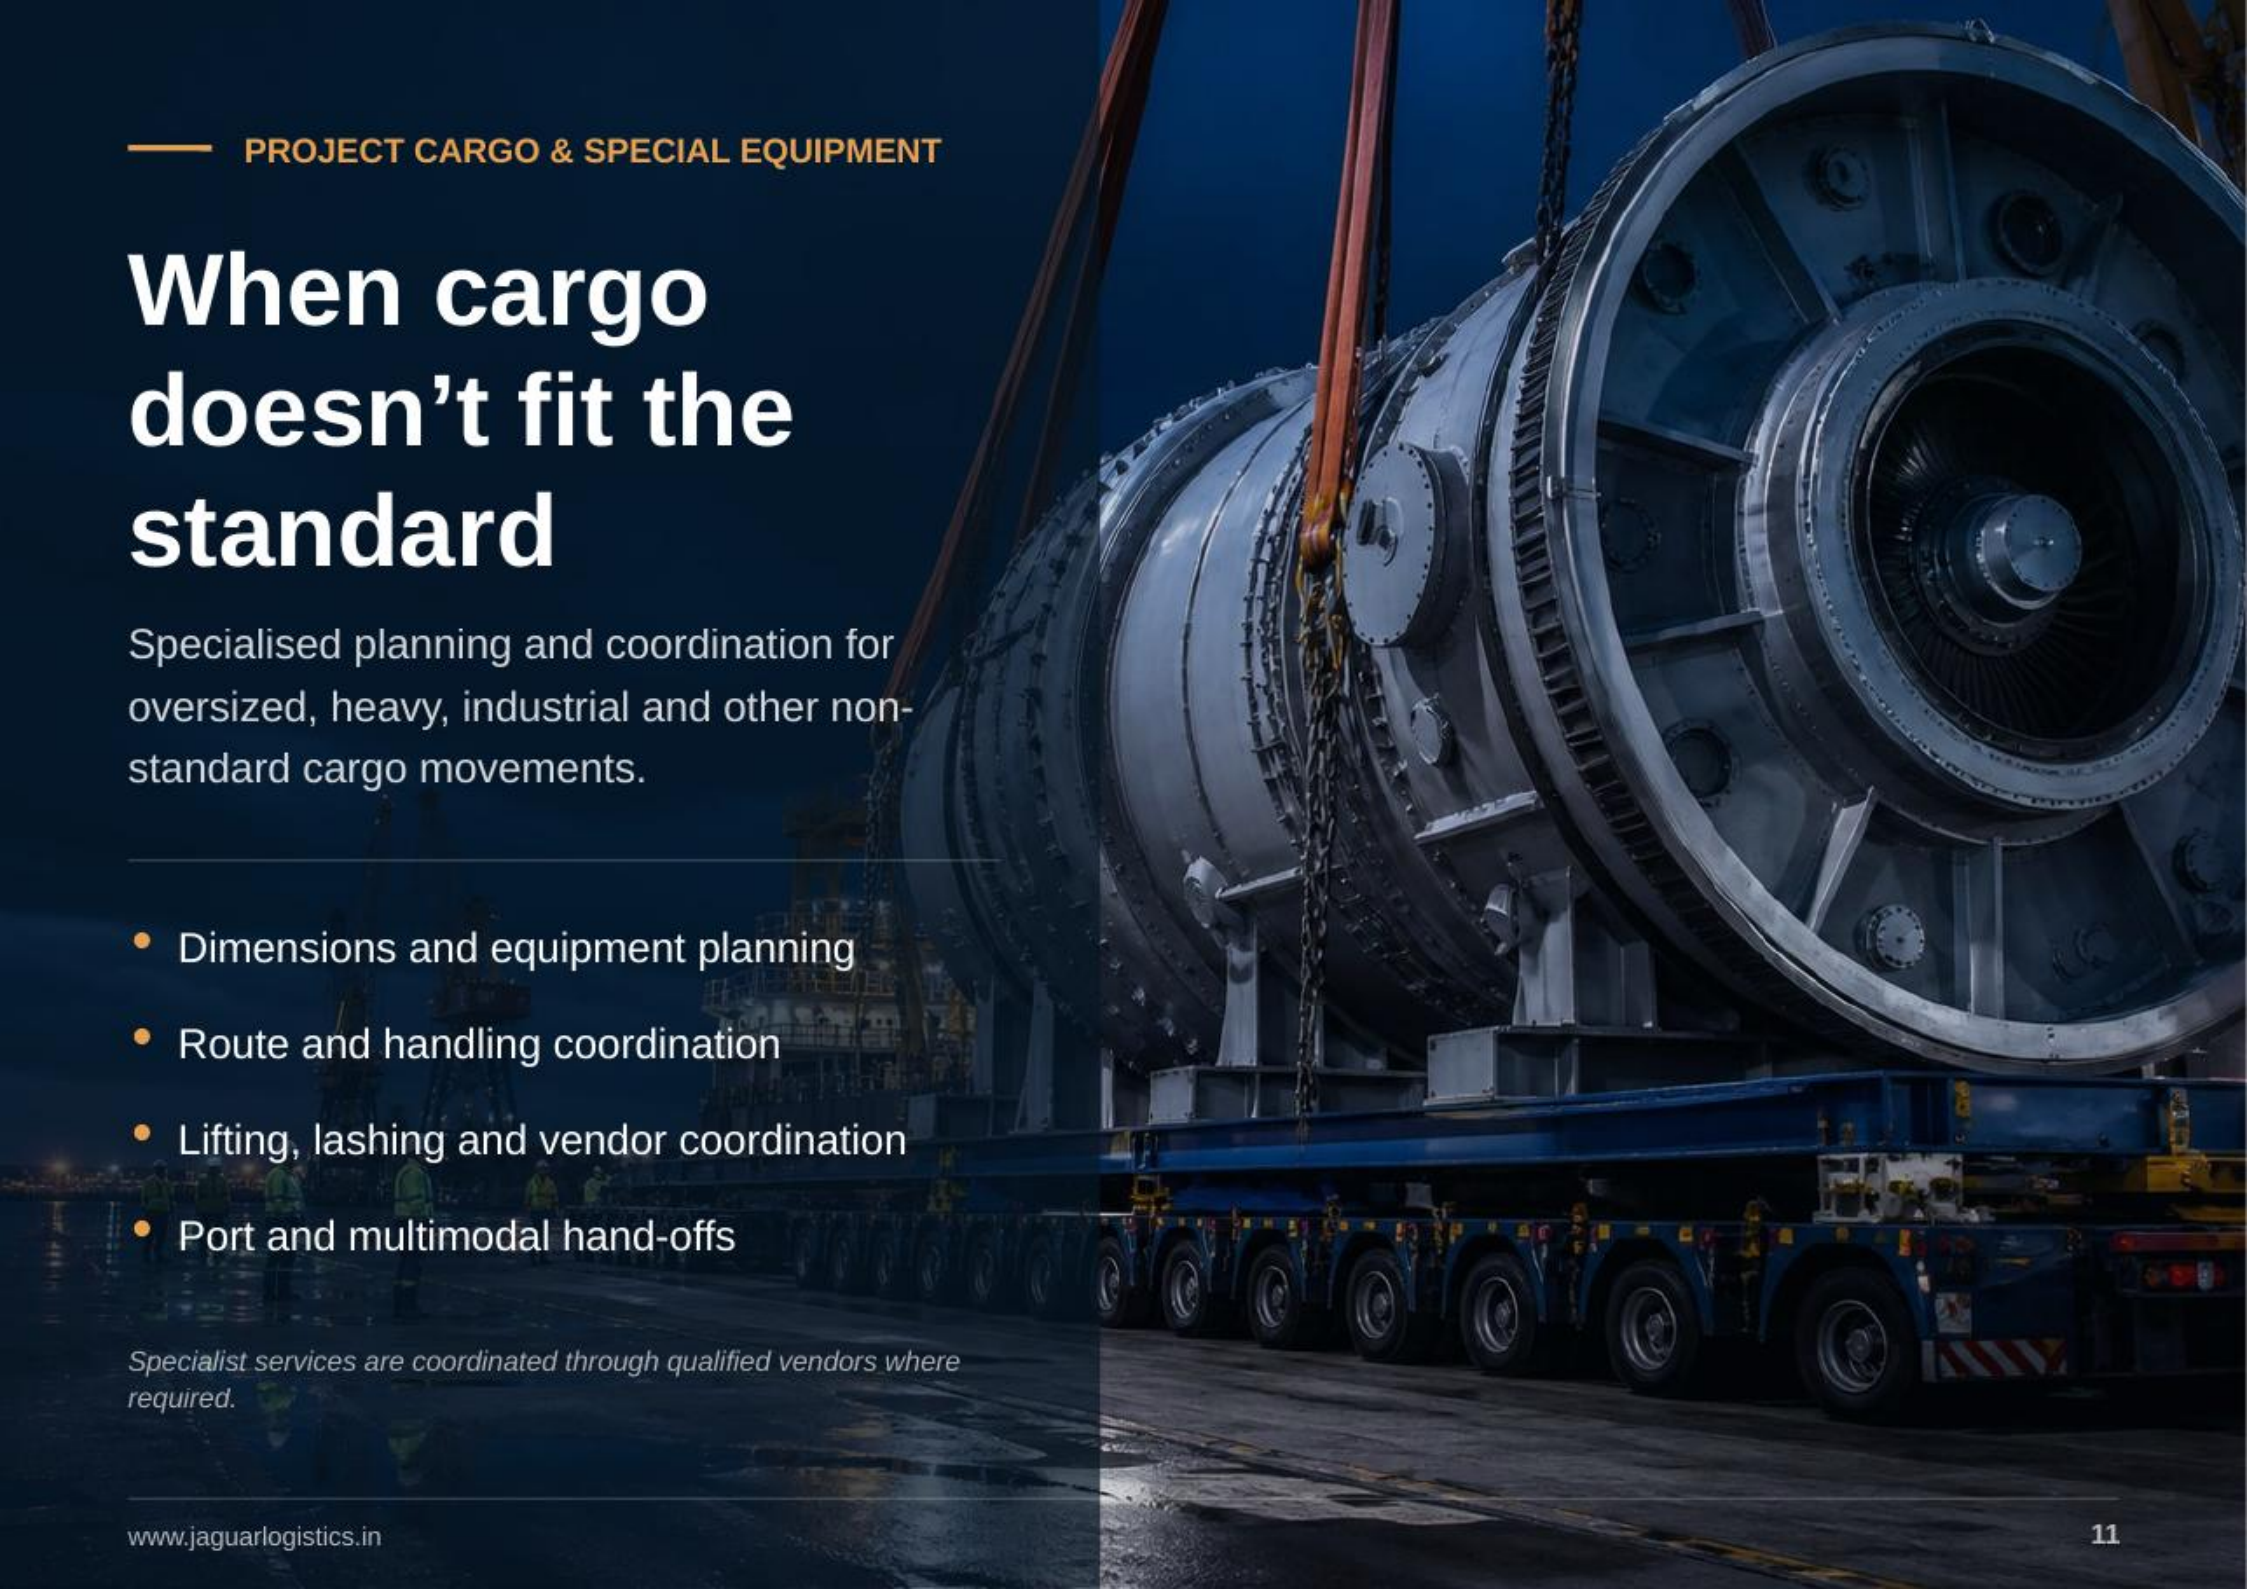

When cargo doesn't fit the standard

Specialised planning and coordination for oversized, heavy, industrial and other non-standard cargo movements.

- Dimensions and equipment planning
- Route and handling coordination
- Lifting, lashing and vendor coordination
- Port and multimodal hand-offs

Specialist services are coordinated through qualified vendors where required.

Supporting diverse cargo profiles

Solutions are planned around the cargo—not a one-size-fits-all template.

01 Agriculture & food products

02 Pulses, grains & spices

03 Engineering goods & machinery

04 Automotive components

05 Textiles & packaging

06 FMCG & general merchandise

07 Industrial equipment

08 Consumer goods

Service applicability depends on cargo classification, handling and regulatory requirements.

Strong origin coordination from central India

Headquartered in Indore, Jaguar Logistics coordinates factory pickups, inland movement, documentation and the gateway hand-offs required for international cargo.

HEADQUARTERS

INDORE · MADHYA PRADESH · INDIA

- Factory pickup
- ICD / CFS coordination
- Gateway transportation
- Customs and carrier hand-off

India connected through international service networks

Jaguar Logistics coordinates cargo through shipping lines, airlines, overseas agents, authorised customs specialists and transport networks.

- Ocean service access
- Air routing access
- Overseas agency coordination
- Destination hand-off support

A clear route from brief to delivery

Six connected stages keep ownership visible and hand-offs controlled.

Visibility throughout the journey

Customers receive clear milestone updates and early communication when schedules, documents or hand-offs need attention.

- ETD and ETA follow-up
- Transshipment milestones
- Documentation coordination
- Exception communication

Dedicated support and escalation remain central to the communication flow.

A logistics partner built around responsiveness

Practical planning, clear communication and accountable coordination from enquiry through delivery.

01 RESPONSIVE COMMUNICATION

Clear, commercially practical support.

03 END-TO-END COORDINATION

A connected shipment flow across hand-offs.

05 GLOBAL NETWORK ACCESS

Agency, carrier and destination coordination.

07 SINGLE-POINT OWNERSHIP

Dedicated coordination across the shipment lifecycle.

02 COMPETITIVE ROUTE PLANNING

Options assessed around cargo and priorities.

04 FLEXIBLE SOLUTIONS

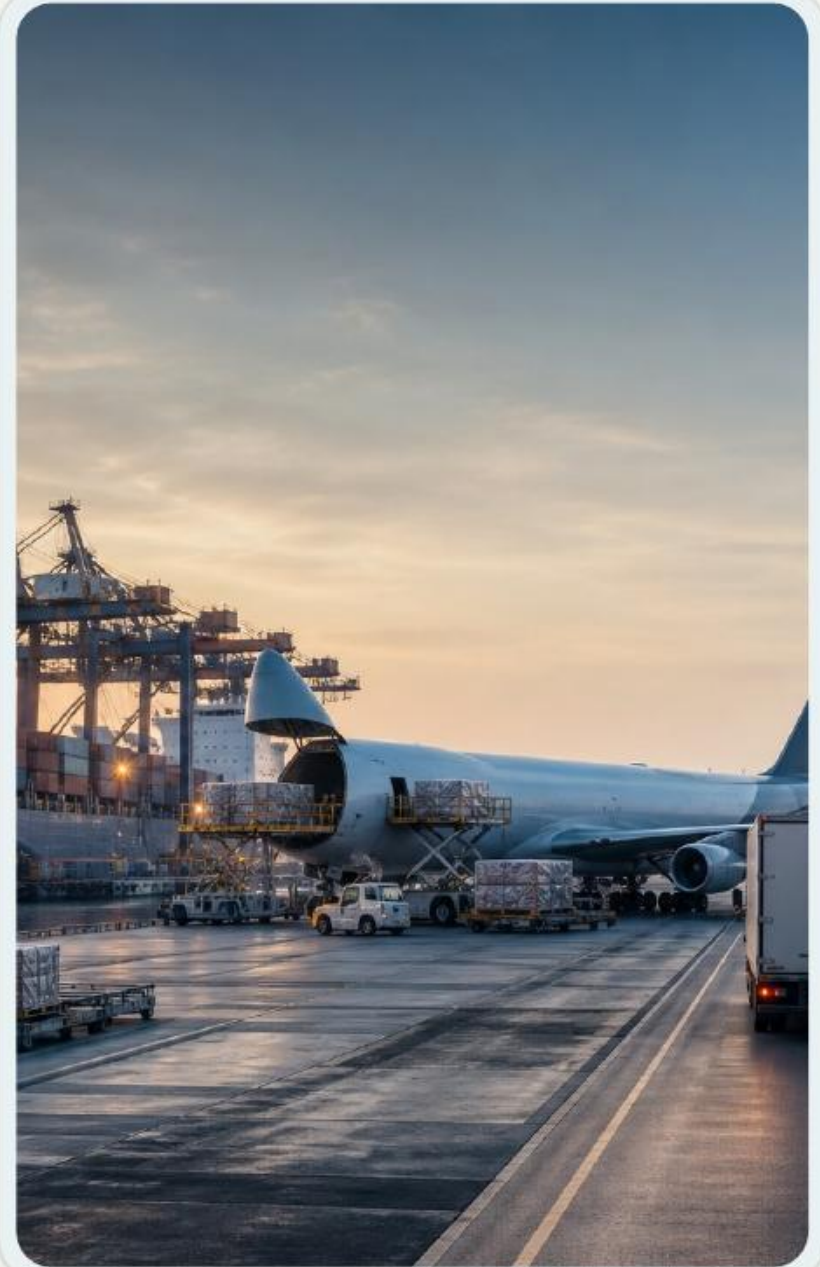

Plans tailored to transit, budget and destination.

06 PROACTIVE VISIBILITY

Milestones and exceptions actively communicated.

08 ESCALATION SUPPORT

Management attention for critical requirements.
